

## Senior Software Developer

Bravo LT needs you to be a part of our highly motivated group of technology experts. We share a passion for technology and the community we serve, and we are committed to building long-lasting, productive relationships. We focus on giving back to the community, positively impacting society, and providing quality solutions that work. We believe in *autonomy*, *mastery* and *purpose* and in trusting people to do the right thing - and we think Bravo LT is a pretty great place to be a part of.

The Bravo LT Sr. Software Developer possesses a deep understanding of the analysis, design, implementation, testing, and maintenance of web applications, from the backend to the frontend. A strong foundation in computer science and the C# language ecosystem. This person would need to have experience identifying gaps in skill sets specifically around development of services and APIs

### Responsibilities

- Assist in making architectural choices based in-house hosted and cloud hosted applications
- Strong knowledge of and experience in back-end development
- Excellent problem-solving skills
- Validates proposed applications align with the architectural design and with business needs
- Drives process leadership for work groups, and product/service delivery strategy and work plans
- Ability to troubleshooting and analyze issues
- Regularly provide guidance and training to less experienced team members

### Basic Qualifications

- Bachelor of Science degree
- Proven track record of creating great architecture and clean code
- Solid understanding of object-oriented software design and related patterns
- Expert in the C# programming language
- Experience with relational databases, such as SQL Server
- Experience with Azure
- Knowledge of modern software architecture, such as SOA, SOAP, and REST
- Experience with architecture and coding API's and web services
- Strong interpersonal and communication skills and the ability to interact with a diverse group of clients and colleagues at a high degree of professionalism

### Skill Requirements

- Programming Languages: .NET/C#
- Relational Database experience: SQL Server
- Cloud: Azure

Location: REMOTE
