

Agile Business Analyst / Team Lead

Bravo LT needs you to be a part of our highly motivated group of technology experts. We share a passion for technology and the community we serve, and we are committed to building long-lasting, productive relationships. We focus on giving back to the community, positively impacting society, and providing quality solutions that work. We believe in *autonomy*, *mastery* and *purpose* and in trusting people to do the right thing - and we think Bravo LT is a pretty great place to be a part of.

Responsibilities

- Work closely with other team members including software developers, quality control engineers (testers), and other technical staff
- Participate in Agile ceremonies including daily scrums, demos, retros, grooming, and planning sessions
- Work with product owners to align team with the product vision, sprint goals, and other necessary information
- Oversee and supervise a dedicated Agile software development team
- Work with the team to help groom the product backlog and create epics, features, and user stories that articulate the business needs of the system
- Conduct research to gain user insights into the use and implementation of Agile methodologies
- Engage business partners to understand and capture business needs and requirements
- Facilitate collaboration across the team to ensure requirements are well understood
- Facilitate refinement and work breakdown activities
- Engage business partners to support backlog prioritization based on business value, dependencies, and level of effort

Qualifications

- Bachelor's degree or equivalent experience in Information Technology or Business Administration
- Demonstrated success in running projects as a liaison between IT and the greater organization
- Hands-on experience in a Scrum Agile development environment
- Ability to coach and mentor
- Ability to collaborate with and influence people at various levels
- Sound understanding of a scaling framework such as SAFe or LeSS
- Strong presentation and communication skills with a consultative approach
- Proficient in Jira

Preferred Qualifications

- Certified Scrum Master (CSM)
- Certified Scrum Product Owner (CSPO)
- Certified SAFe Agilist
